Army field manual (FM) 4-40, Quartermaster Operations, is the revision of the obsolete FM 10-1, Quartermaster Principles. FM 4-40 provides logisticians and field commanders an understanding of Quartermaster principles, organizations, and procedures within the context of decisive action. The manual provides basic doctrinal discussion on the organization and operations of Quartermaster units within the Army. This manual updates FM 10-1, incorporating modular unit capabilities, designs and concepts, plus updated terminology IAW ADP 3-0 and ADRP 3-0 and other commensurate doctrine into FM 4-40. In rewriting the manual, chapter content on individual commodity areas was consolidated to produce three chapters from 19 chapters: one covering fundamentals, one covering all supply functions, and one covering field services. The net effect was to reduce the manual from 130 pages to 60 pages. Other key changes in this manual include the addition of a foreword to highlight the importance of the Global Combat Support System Army, the identification of strategic partners that support Quartermaster functions, expanded discussion of supply chain management, and operational energy. The FM also addresses modernization in both the aerial delivery and mortuary affairs force designs. The manual also further expands on the two Quartermaster core competencies; supply and field services. FM 4-40 contains three chapters: Chapter 1 provides an overview of Quartermaster Operations. This chapter describes the Quartermaster functions, enabling organizations and mission command systems. The fundamentals of logistics command systems and how they enable commanders to gain a common operational picture is also noted. Chapter 1 defines support relationships, management functions, and requirements for total asset visibility. Chapter 2 discusses supply operations, reviews classes of supply, discusses multi-modal operations, and establishes an overview for unit supply operations. Specifically, mentioned are...
